

EVENT HOSTING/EVENT SPEAKERS

We have a variety of excellent speakers who are able to speak on a whole host of topics to ensure your event is a day to remember.

We start by taking a brief from you and then we maintain close contact as we work through the project with you.

We recommend you have a telephone conversation with our speaker beforehand to ensure you are comfortable with his/her style and to fully brief the speaker so that topic(s) covered are slanted to *your organisational culture* and link *with your important messages*. Our speakers are able to deliver a keynote speech as a part of your programme or facilitate your entire event, whichever you prefer. Our aims are two-fold: to ensure a slick, smoothly-run event and to take some of the worry and pressure off you!

Call Pam now to discuss your requirements.
